Getting Started

Home Photo Calendar is very easy to use. All features are accessible via the menu.

- ◆ **Start by clicking menu File/Load Calendar Pack.**

- ◆ **Select a Calendar Pack from the program folder:**
Typically located in C:\Program Files\DracullSoft\DigiAppCalendar

- ◆ **Select Year and Month from the menu:**

- ◆ **Select Menu File / Print:** To Print the selected Month.

Changing Calendar Setting

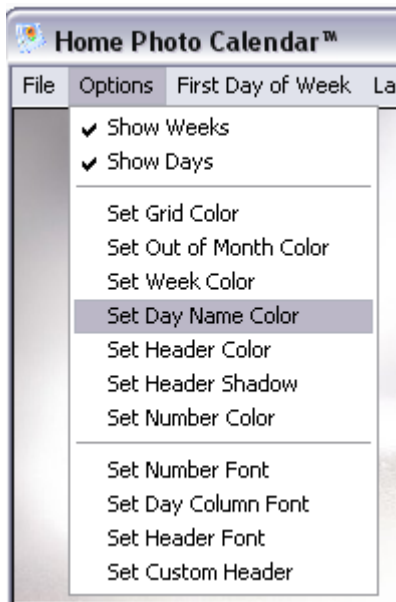

Home Photo Calendar offers a wide range of options to modify the calendar layout and appearance.

From the menu Options the following can be changed

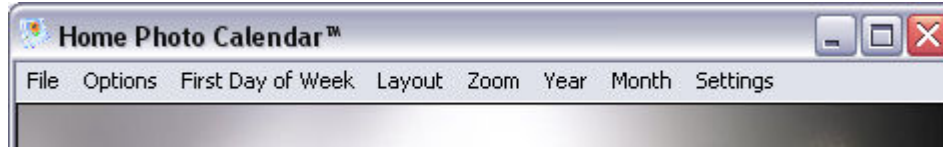

- ◆ **Show Week Numbers:** Check On to include week numbers.
- ◆ **Show Day Names:** Check On to include weekday names or column header.
- ◆ **Color options:** Change any of the colors in the calendar.
- ◆ **Font options:** Change any of the Fonts used.

Note: in some cases the Calendar Packs may require a font not present on your PC. Should the calendar fonts look strange then select a different Calendar pack or download the required font or change the font to one that exists on your PC

Note: Some languages require special fonts to display their characters set. This is normally configured in the Language / Regional settings of the PC, but can requires the font to be changed from the options menu.

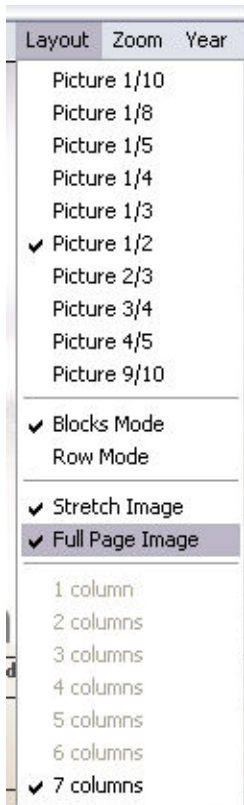

Other Menues

◆ **First Day of Week:** Home Photo Calendar will automatically select “System” as first day of the week. This will make the calendar follow the Regional Setting on the PC. It is possible to select a specific weekday as the first day of the week.

Note: Home Photo Calendar looks up weekdays and month names from the Regional Setting on the PC. In the Full version it is also possible to enter these manually as well as changing the column headers in Row Mode (e.g. using the name of family members or activities etc.)

◆ **Layout:** Configure how the Photo is displayed. It is also possible to select to Stretch it and to make it cover the entire page (full page so the calendar is displayed over the image). Switch between Block Mode and Row Mode. In Row Mode select the number of columns to display

Row Mode in German

Block Mode with both Gregorien
Islamic Lunar Calendar (Hijri)

◆ **Zoom:** size the display to match the selected paper size. (NB: will not size higher or wider than the screen). The fonts and image will size accordingly. It is recommended to use between 50% and 100% depending on screen resolution.

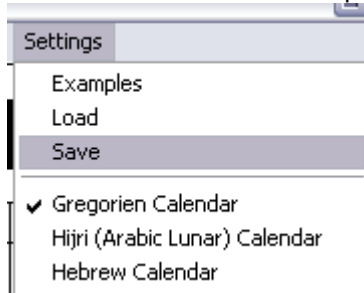

◆ **Year & Month:** Select Month and Year

◆ **Settings:**

Example: PDF file of a Calendar printed to PDF (requires pdf printer driver).

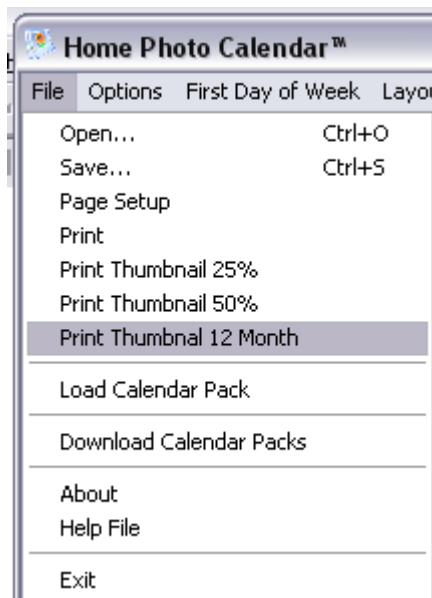

Load and Save: settings created.

Hijri (Islamic lunar) calendar and Hebrew calendar can be printed on the calendar.

◆ **Other features:**

File menu offers ability to use your own Photo's using "Open" and to save the calendar as an image file using "Save". Page Setup allow you to select paper size. Print Thumbnails and a full 12-month thumbnail calendar on one page can be used for a test print (Note: calendars will be sized to fit on the paper selected and for the 12 Month calendar this may be slightly different from the view to allow all 12 calendars to fit on a page having 3 month in 4 rows)
